MAN KILLED ON I. C. R. R.

Thomas Hopper Found Dead Sunday Morning Near Masonville.

WAS A TRACK WALKER

Home Was at Macedonia and Aged About 21 Years.

Cold in death the body of Thomas Hopper, a white man, was discovered by conductor Simmons, Sunday morning, alongside the I. C. near Masonville. When conductor Simmons saw the body of the unfortunate man he stopped his train and easily identified the body. After running into the station here he notified agent Mallon, who called up the coroner.

As soon as possible coroner Allensworth went out and summoned a jury and held an inquest. The verdict of the jury was that Hopper had come to his death by being struck by a passing train.

After the inquest the body was brought to the city and prepared for burial. The body was taken to Macedonia yesterday for interment.

The deceased was about 21 years of age and had a position as track walker for the I. C. He had been in the service a year or more, as we are informed by local agent Mallon. He was single, and as he was a steady, faithful man it is supposed that he had made his best of inspection, and sat down on the side of the track and dropped off to sleep and that the pilot of a passing freight had struck him and hurled him into eternity.

An inspection of the body disclosed that one leg was broken and other parts of the body badly mangled.

The deceased was a son of Mr. W. T. Hopper of near Macedonia, this county, and a cousin of Mr. L. E. Fowler, of the Anderson-Fowler Drug Co., of this city.

REPUBLICAN GERRYMANDER

Proposed For Magisterial Districts In New Order.

LEAVES 2 DEMOCRATS.

New Precinct Made With Voting Place At Ovil.

The report of the commissioners appointed last fall, to re-district the magisterial districts of Christian county, was filed in the county clerk's office last week. The commission was composed of two Republicans and one Democrat. The report makes but one important change, that of course in the interest of the Republicans. It takes parts of Bluff Spring, Mt. Vernon and Baker's Mill precincts to make a new precinct with a voting place at Ovil. This precinct is added to Esq. W. L. Parker's district, the effect being to take enough Democratic votes away from Esq. A. J. Estes' district to make it safely Republican. The new gerrymander gives the Republicans six out of eight districts. The old plan gave them five out of eight, but the Democrats captured two Republican districts last election and now have the Fiscal Court. The district most effected is that of Esq. Estes. Esq. Parker is given a district that runs from Pond River to West Fork, nearly 30 miles in length. The gerrymander will be resisted by Esq. Estes and the Democrats generally, its object being to save the Fiscal Court to the Republicans at all hazards.

One new precinct is created in this city, being merely a division of No. 4. This change is without political significance.

Fatally Shot.

Mrs. Lee Stribling was fatally wounded with a shotgun at Shannon, twelve miles south of Maysville. The weapon was in the hands of Bud Morgan, who was trying to shoot Mrs. Stribling's husband, who was with her. Stribling had previously shot at Morgan, it is stated.

who has sold his tobacco on the Loose Floor and I will show you a satisfied man and one who will tell you that it is the best place for your business. Our prices last week were a shade higher than the week before. You can raise your expectation to the highest point and then bring your tobacco to the Loose Floor and get more than you counted on. Now look at these quotations:

Frank 84.25 to 4.50; Low Leaf, 84.25; 25; 10; 4.75 to 5.50; Common Leaf 7.50 to 8.50; Common Leaf 5.50 to 6.50; Medium Leaf 8.50 to 9.50.

Don't sell your lugs at four dollars when you can get five on the floor. Don't sell your Leaf at six and a half when you can get eight dollars. It is foolish.

DEERING

Standard of the Harvest

Binders, Mowers, Rakes.

The praise of satisfied users throughout the agricultural world has made the name of DEERING so well known that it hardly seems necessary to dwell at great length upon the merits of the Deering machines. For those however, who have not had the pleasure and satisfaction of using this machine will say they run lighter, last longer and make more happy farmers than anything of its kind wherever grass and grain are grown. See them on exhibit, or phone or write the Planters Hardware Co., incorporated, for prices and full particulars.

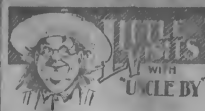

Deering Binder Twine

Another thing that makes the farmer happy is TWINE that will work in all makes and kind of binders, one that runs even, and the long, smooth and strong, made of the best of manila and sisal fibre the world affords. Give us your order for your Machines and Twine. Have your wagons loaded with anything in our line.

Couldn't Fool William. Little Willie, just in from North Dakota, had been sent to the city school and the teacher was giving him his first lesson in reading. Pointing to the illustrated text, she said:

"Now, Willie you repeat after me each word as I read it. Are you ready?"

"Yes'm." Teacher (reading)—"This is a hare! See him run!"

"This is a—" repeated Willie. But just then his eye took in the illustration and he shouted with excitement: "Hair nothin'! This is a jack rabbit—and he's got some!"

A pugilist fellow most thorough had whipped every pug in his borough. And then he went west. On a prize fighting quest. And died from the kick of a burro!

Mere Melange.

"Th' trouble with some men," says Uncle By, "is that when they rise from th' ranks, they forget that such a thing as ranks ever existed."

"My bum paper says, 'O. M. Rosen-crans butchered last week.' I've bin wonderin' whar th' durned thing went."—Uncle By.

There is a fifteen cent family in Iowa. The man's name is Nicol and he has a wife and one child.

A Nebraska girl hunked 120 bushels of corn between sun-up and sun-down, thereby winning a piano. Now the neighbors are firm in the belief that a girl who can hunk corn that way has no business doing anything else.

Hope is the only elevator of life that is ever an uplift.

A floating debt may be as heavy as a new wife's first biscuits.

"By heck," says Uncle By, "it does seem that I ain't dun nothin' so fur this winter 'ceptin' ketch cold and sit over it!"

A suburbanite may have to run for his train, but he doesn't have to sleep in a court bedroom and listen to the man in the opposite flat snore.

A Kansas man left a request that he be buried with his dog. He wanted to stick as long as possible to the only true friend he had ever known on earth.

Scientists at last have acknowledged that they know nothing at all as to the probability of other solar systems, aside from our own, being populated. I'll bet the women can find out if they want to!

A child, entering school, told the teacher she was six years old "the day the hired girl came." "That was yesterday, I suppose—and there will be another to-morrow, undoubtedly."

It always sort of makes an earnest lover feel cheap after having won her, to discover that he could have had her a year sooner for the asking.

A man can always find his wife who she don't care if he does.

With the Country Editor GLAD HE'S ALIVE.

Please don't find fault with the paper this week. We lost the heading in the fire, and nearly lost our own head, besides a lot of type and set matter which is awfully crowded out. We are glad that fire do not come every day.—Editor Crook (Feb.) 28nd.

ONE ON DINNY.

Carvey was asked what caused all the noise in his house one morning, and getting back at the inquisitive neighbor, answered "Oh, 'twas me boy Dinny. He sat down on his grandmother's tail one day, and they bit him!"—Eaglewood (Ill.) Times.

HE GOT THE MITTEN.

I heard a good one on an impetuous fellow who last Christmas season wanted to make his best girl, who, by the way, had artistic tastes, an artistic present. Going to an art store, he found everything that he thought appropriate too high for his exceedingly limited purse, but, going out, he saw the fragments of a beautiful piece of statuary, which had just been broken. He asked the clerk what he would like for them, and was charged only a few cents. He then asked that they be packed up, as they were, and sent to his best girl, thinking that she would think the handsome work of art had been broken in transit. This was all right, only he learned that the careful clerk had wrapped each broken piece separately, and spoiled the delusion, and worse than all, the girl gave him the mitten.—Suburban Times.

Pretty Bethel Girl Becomes A Bonny Bride.

Miss Mary Grace, only daughter of Mr. A. H. Grace, of near Cadiz, was married last Thursday evening at the home of her parents, to Mr. Will Jackson, a son of Mr. C. A. Jackson, of Caldwell county. Owing to the illness of Mr. Grace, the wedding was a very quiet home affair. Mr. and Mrs. Jackson, will make their home with the bride's parents.

The bride is one of the most beautiful young ladies in a county noted for its pretty women. She was educated at Bethel Female College, in this city, and has numerous friends here who will wish her a happy future. The marriage is the culmination of a long standing attachment between the young couple.

Discharged Policeman Sues for Violation of Contract

Henderson, Ky., Feb. 23.—John Hawkins, a discharged policeman, was given a verdict against Mayor S. D. Harris for \$140.20 in the Circuit Court this afternoon.

The money was used by Hawkins to get out votes, repay men for lost time, buy whiskey, beer, cigars, etc., for distribution at factories and hotels during the Mayor's campaign. Mayor Harris swore that the expenditures were unauthorized by him. The mayor is a prominent church worker and outspoken in the cause of temperance.

Caution

Imitations have been placed upon the market so closely resembling Alcock's Plaster in general appearance as to be well calculated to deceive. It is, however, in general appearance only that they compare with Alcock's for they are not only lacking in the best elements which have made Alcock's so efficient, but are often harmful in their effects. Remember that Alcock's are the original and only genuine porous plasters—the best external remedy known—and when purchasing plasters the only safe way is to always insist upon having Alcock's.

The Limit of Life

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every vital organ of the body. Guaranteed by R. C. Hardwick, Druggist, 50c.

Rough on Harry.

When the Elizabethtown News reports that a man "with his head crushed and his neck broken walked to a hydrant, washed his face free of blood, entered a carriage and drove to a doctor's office," it simply makes Annanias look like a plugged nickel. "Regular as the Sun"

is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by R. C. Hardwick, druggist, 25c.

TOBACCO DESTROYED

Belonging to Messrs. Wallis and Fowler, of Bethesda.

The Cadiz Record says: "We have been informed that some one entered the barn on the old Sells farm, near Bethesda, several days north of here last Wednesday night, which place belongs to Mr. H. C. Wallis, of Rinaldo, and threw about 2,600 pounds of tobacco upon the floor in a tangled mass, which damaged it considerably, owing to the dry condition of the weed. About 1,000 pounds of it belonged to Mr. Wallis, while the remainder belonged to Mr. C. Jeff Fowler.

The Princeton Leader says Mr. Wallis authorizes the statement that he will give a reward of one hundred dollars for the arrest and conviction of the parties who destroyed the tobacco as above mentioned.

AMUSEMENTS.

When the train rumbles onto the stage for the famous "Blue Cut" train robbery scene in "The James Boys in Missouri," a stage effect startling in its realism is offered. It is one of the most sensational and surprising scenes ever put on, and we will have the privilege of seeing this production here next Friday night, March 1st. The play is a strong one, the plot being well constructed and well handled by a large and competent company. The scenic effects are the finest ever seen in a production of this kind.

EXCITING GAMES.

High School and Soldiers Won Contests.

The double-header basketball game Friday night resulted in victories for Company D and the High School teams. In the first game of South Kentucky College and Company D, the Soldiers won by the score of 20 to 14. The line-up of the first game was as follows:

S. K. C. 1st.	Co. D, 1st.
Phillips.....Forward.....	Summers
Cutcher.....Forward.....	Clark
Sherrill.....Center.....	Renshaw
Hay.....Guard.....	Holeman
Bridgewater.....Guard.....	Clabourne

The second game between the Second College team and the High School was a faster contest than was the first, the players being lighter in weight, and stubbornly contested every point. The score was 19 to 4 in favor of the Public High School boys. Following is the line-up of this game:

S. K. C. 2nd.	H. H. S.
McCarley.....Forward.....	Meacham
Kuykendall.....Forward.....	Faxon
Sherrill.....Center.....	Earle
Bridgewater.....Guard.....	Barley
Hardy.....Guard.....	Breathitt
Woodruff.....Guard.....	Barley

The next games will be played Friday night of this week.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble prevails upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness. It has been said that when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle sent by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonials received from sufferers caused. In writing Dr. Kilmer & Co., Ringhamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Ringhamton, N. Y., on every bottle.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—is more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

KAISER'S AMBITION

WANTS TO COMPLETE ROAD TO BAGDAD AND PERSIAN GULF.

Declared That the German Emperor is Determined to Have an All Rail Route from Hamburg.

Among the many ambitions of Kaiser Wilhelm of Germany not the least is that of possessing an all rail route from Hamburg, Germany, to Bagdad and the port of Koweit, on the Persian gulf. It is said that the emperor is resolved to have the connecting lines already projected through Asia Minor pushed on to completion if he has to get up a war to do it. And the Sultan of Turkey approves the enterprise, for the road would be invaluable to the government from military and commercial points of view, saying nothing of

Projected Bridge Over the Bosphorus, fording speedy and direct routes to the holy city of Mecca.

The Germans are anxious to have the Bagdad railway speedily finished to open up new commerce for Germany with the 300,000,000 population of British India. The proposed railway system would cover a large part of the distance on the direct road to India. When once completed from Constantinople through Asia Minor to the Persian gulf the line, with its European connections, would enable the Kaiser's Imperial train to make an unbroken journey from Berlin to Bagdad and the Persian gulf as well as to ancient cities of Palestine.

The first section of 200 kilometers from Kooke to Eregli (east of Constantinople) has been completed, and it is now proposed to begin work on three sections of the line of 100 kilometers each. It is estimated that the cost of each section will average about \$10,000,000.

Notwithstanding Germany's financial condition in colonial policy, no power has been able to achieve a brilliant commercial policy. In ten years her commerce in Asia Minor has increased more than doubled. By her Bagdad connections Germany has acquired a vast strip of country through Asia Minor. It is about 3,500 kilometers long by 40 broad, for the commerce of her rights of mineral and other developments for 20 kilometers on each side of the line. Germany looks forward in the future to the development of the aluminum and petroleum yielding lands at Kerkak, about Babylon and the Tigris and Euphrates Valley, known to be able to furnish a supply ten times that of the Bakou oil fields. She calculates that Anatolia, Syria, Mesopotamia and Irak can, when developed, produce more corn than the whole of Russia.

Already the German emperor has studied the carefully devised plans of the famous German engineer Siegmund Schneider for spanning the Bosphorus with a bridge uniting Europe with Asia. The Sultan has seen the plans and approved them, and the mere question of raising the necessary money to complete the work along the railroad line will not keep the great monarchs awake at night to any extent.

Down in those vast plateaus and valleys along the Tigris and Euphrates are inexhaustible quantities of petroleum and coal. The road will awaken the echoes of the ancient world which built the greatest cities of history, among them Babylon and Nineveh, where vast armies overran the earth and palaces arose on every hand.

The idea of such an enterprise bringing to life an ancient civilization is inspiring. Leaving Hamburg or Berlin, the passenger soon arrives at Vienna and takes his way down the continent through Budapest, passing through Austria, Hungary, Servia, Bulgaria, down to the north of Greece, through Constantinople, across the Bosphorus, thence toward the Persian gulf, going a little to the north of the ancient city of Troy and to the south of Armenia, called "the cradle of the world." Mount Ararat and the Euphrates, passing the branch line leading to Damascus and the Holy Land, with Jerusalem on the one hand and Mecca on the other, will be reached. Thence a short run takes the train to the seaports on the Persian gulf.

Diplomatic.

The tireless preacher finally finished his almost interminable sermon. The congregation had slowly filed out, save one man, who lagged behind to speak with the pastor. "Do you know, minister," he said in a confidential tone, "that your sermon this morning reminded me more of a wheel than anything else that I ever heard of?" "A wheel!" said the startled divine. "How could it do that?" "Oh, surely that is a wheel the longer the spokes in the longer is the tire,"—Harper's Weekly.

How Nature Provides.

OUR BEAUTY, HEALTH AND HAPPINESS.

Is it not possible if not probable that elements necessary for the body's health are contained in the native medicinal roots found in the earth, digested in the plant laboratory of nature and made ready for human or animal use?

The medicinal virtues of many American plants and roots were known to modern physicians as Galienophylus or Blue Columba was known to the Indians as "Squaw root." Another, known to the Indians as "Waterweed root," is used in modern medicine as "Cimicifuga."

Frost King's American Dispensary, an authority in these matters, says: "Our Indians set a high value on Waterweed root (Black Cohosh) in diseases of women. It is surpassed by no other drug in connection with dragging pains and tenderness."

After many years of study and experiment, Dr. Pierce, the medical director of the "Invalids' Hotel and Surgical Institute," at Buffalo, N. Y., put up a prescription of his own, containing the non-alcoholic glyceric extracts of the two above mentioned ingredients, together with Golden Seal root, Lady's Slipper root and Unicorn root. Thus, there is mystery in the make-up of this famous "Prescription." The use of alcohol is

never added in its manufacture, though it is a long time found to serve the purpose of extracting and preserving the medicinal properties of the roots.

Learn the Truth. The one medicine for the cure of the most common ailments of the human system is Dr. Pierce's "Prescription." The ingredients of which are printed on the wrapper of every bottle, having the great Laboratory in Buffalo, N. Y., where it is made is called THE PIERCE'S FAVORITE PRESCRIPTION.

It Stands Alone not only in respect to the cure of the most common ailments of the human system, but also as the only specific advertised remedy for women's diseases which absolutely contains no alcohol.

It Stands Alone as the one medicine for women, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do because his "Favorite Prescription" is made of such ingredients and after a working formula that has thousands of cures to its credit placing its merits above criticism.

It Stands Alone as Nature's cure for the diseases peculiar to women because the earth supplies the vegetable ingredients. Mrs. Mary J. Beard (Trained Nurse, Washington Hospital, of the 9th Street, early Indiana. "I feel badly for ten years, had terrible pains at times and was unable to be about attending to my duties; appetite was poor and sleep brief. Tried to cure myself in various ways without success, but finally my attention was called to Doctor Pierce's Favorite Prescription and decided to try it. Am certainly glad that I did for I began to improve with the first bottle, and gradually became better until I was entirely cured of the old trouble. Am well and can enjoy life once more."

Dr. Pierce's Good temper is a matter of good health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. They are safe, sure and speedy, and once taken do not have to be taken always. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. By all druggists.

CAPE COD CANAL

SHIP CHANNEL TO BE CUT
ACROSS THE PENINSULA.

Will Bring Boston and New York
Nearer Together by the Water
Route—Advantages Which
Will Be Gained.

When the Cape Cod canal is fin-
ished in three years, the time set by
its promoters, New York city will be
140 miles nearer the hub by sea and
75 miles closer by the inland route.
Estimates from such data as are
available indicate that a tonnage of
coastwise trade of 22,000,000 tons
now passes annually around Cape Cod
by all or partly open sea routes. The
major portion of this is expected to
be diverted through the canal by the
very low tariff promised and the
avoiding of delay and danger associ-
ated through a greater part of the
year with navigation in the stormy
waters and sweeping fates of Cape
Cod and the bays which menace swift
there, as also in treacherous Vine-
yard sound, a part of the "inside"
route. Most of the tonnage is coal,
and cheaper fuel for the mills of
northern New England is one of the
most important commercial prospects
of the proposed canal building.

Strategic values of such a canal to
war vessels of light draft are of fed-
eral importance. It should be a
great boon to yachtsmen.

From the shore of Buzzard's bay,
beginning in the town of that name,
the canal is to be cut through the
narrowest part of Cape Cod, the ter-
minus of Massachusetts bay being at
Barnstable. From shore to shore is
seven and one-half miles. Shoals in
Buzzard's bay will require dredging
of an additional distance of four and
one-half miles, according to Mr. Plan-
can's engineers' report, and will make
the total length of canal building
12 miles, with a depth through-
out at low tide of 25 feet. It follows
the valley of the Monument and Scus-
set rivers, and is so straight that the
maximum deviation is only 600 feet,
or about a half mile on each side of
a straight line.

No engineering problem faces the
builders, Mr. Planagan said, as it is
simply a question of removing so
many million cubic feet of earth.

The minimum width of the bottom
will be 125 feet, extending at four
points for the passage of vessels go-
ing in opposite directions to 300 feet
and 350 feet on the surface. The
character of the soil will render un-
necessary any retaining construction
on the side except at a few points of
—no great length, where ordinary rip-
rap will be all that is required.

The estimate of the actual cost
of construction is \$10,000,000, but no
allowance is made in these figures for
a contractor's profit. It is believed
that the canal can be completed with-
in three years at an outlay of \$12-
000,000.

For naval purposes the canal will
have a value, as it will be navigable
for second class cruisers, torpedo
and gun boats and submarine craft.
Idealists may see in it a link in that
ocean to ocean route by inland wa-
ters which has been a dream of im-
aginative naval strategists for gen-

erations. Vessels of light draught
could be able to pass by a water-
side route from Cape Ann to New
York, thence by the New Jersey
Canal to the Delaware river, to the
Chesapeake by another canal, through
the Dismal swamp to the sounds of
the North Carolina coast, and thence
to Fernandina, Fla.

There is an old project to utilize
the St. Mary's river for a portion of
a water highway across Florida and
build a canal to the gulf from the
head of the St. Mary's. At the other
end of the gulf theorists have devised
a scheme for the access of the Colo-
rado river by war vessels of light
draught, utilization of the proposed
inland lakes, part of the irrigation
system, the building of a canal to the
Gila river and thence gain access to
the Gulf of Lower California.

Not the least of the advantages of
the proposed Cape Cod canal would
be its value to yachtsmen who are
chary to "going on the shoals" in
their light craft to make a trip from
New York to Massachusetts Bay for
yachting contests there.

WORK WEAKENS THE KIDNEYS.

Doan's Kidney Pills Have
Done Great Service For
People Who Work in
Hopkinsville.

Most Hopkinsville people work
every day in some strained, unnat-
ural position—bending constantly
over a desk—riding on jolting wag-
ons or cars—doing laborious house-
work, lifting, reaching or pulling or
trying the back in a hundred and one
other ways. All these strains tend to
wear, weaken and injure the kidneys
until they fall behind in their work
of filtering the poisons from the
blood. Doan's Kidney pills cure sick
Kidneys, put new strength in bad
backs—cures prove it.

John J. Rasford, Cooper, of 766
East 9th St. says: "My back used
to be so lame and sore at times that
when I bent it was all I could do to
straighten up again. The pains were
always with me and doctored at one
time but didn't obtain the slightest
benefit. My attention was called to
advertisement of Doan's Kidney
Pills and I determined to try them.

I got a box and after using them a
few days could not help but notice a
marked improvement in my condition.
My health is better now than it
has been for years. I give all the cred-
it to Doan's Kidney pills, and strongly
recommend them to others."
